Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

⏱ 20 minutes

Importance

Each of these ideas could get done without any difficulty or cost, which would have the most positive impact?

♡

- Resume Extraction and resume parsing helps in analysing, storing extracted useful information from the uploaded CV and Resume

- Backup and recovery options for user's account and job search history.

- job seeker's need attend an online test which will check their skill in a particular domain and their score will be provided and showed in the website.

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.

⚐

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
